

# MIT GO CLUB

The MIT Go Club provides a friendly arena for members to play with and learn from each other. We meet once a week throughout the school year and host many events, including tournaments and study breaks. We also teach many high school and middle school students through MIT ESP's programs.

## **Don't Know How to Play? We'll teach you!**

Many of our members start out as beginners and have fun learning the game as they attend more meetings. We also enjoy teaching the game to newcomers at our study breaks.
